

Allied Super Kwik Coupling

Efficiency is key in remaining competitive in the current marketplace. Sunrise would like to introduce the newest addition to Allied's Kwik Coupling family, the Super Kwik Coupling. This patented* technology looks to **maximize efficiency** (by significantly reducing installation time), and *revolutionize* the way conduit transitions and connections are made (EMT – IMC - GRC 2 1/2" – 4" sizes).

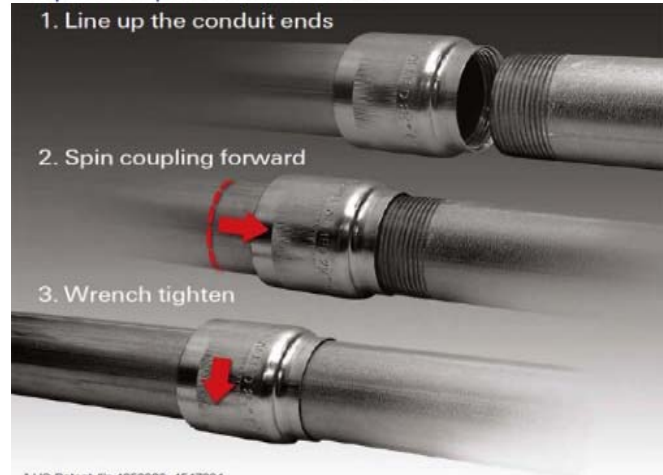

(\$) SAVE TIME, SAVE MONEY (\$)

- Time Savings - Saves Thousands in Labor Cost
- Reduction of Material Cost - No Need for 3 Piece Couplings
- Flexible Design – Speed up transition installation time for GRC IMC EMT from 2 1/2 - 4" sizes
- Connects to Threaded or Unthreaded Pipe - Eliminating Field Threading Saving Labor and Space
